CommunityAction

Executive Director's Annual Report:

2010 was a year of change and challenge for Community Action. The most obvious change, at least on a personal basis, was my appointment in May to serve as the new executive director of the agency. With over 30 years of service to Community Action under my belt, I assumed this appointment with a deep respect for the board, staff, partners, donors and supporters of the agency and a profound sense of responsibility to further our mission ... making a positive impact in the lives of those we serve and on the community at large.

Community Action faces enormous challenges in the months ahead as we grapple with the loss of resources resulting from the end of the federal "Stimulus Funding" initiative as well as the intent of Congress to reduce the federal budget.

There is certainly a place for honest differences of opinion in this ongoing debate about the effectiveness of government programs, but there can be no question that there are still millions of families, children and

Our Report to the Community 2010
People to People

WORKING TOGETHER ... CREATING
A BRIGHTER COMMUNITY

Mission Statement

Hocking Athens Perry Community Action will mobilize resources to empower individuals and communities through advocacy and quality services that promote self-sufficiency and improved quality of life.

Strategies to accomplish this mission include:

The development and operation of program services that address such issues as:

- Early education needs of children;
- Employment and training needs for self-sufficiency;
- Safe and affordable housing for low- and moderate-income residents;
- Food and nutrition needs of residents of all ages; and
- Community development activities that improve infrastructure.

senior citizens in this country who go without the basic necessities of adequate food and safe housing. There also is no question that this agency — and the many others like it throughout the state and nation — are committed to and will continue to work to address these problems.

Your support and generosity in the past have given us the ability to meet these basic needs, and as we move forward in the future to face these challenges, we are so grateful to

have you as our partner.

I trust you will find this annual report of interest as it provides a glimpse into the services we have provided, but more important, the impact these services have on the lives of those we encounter on a daily basis. Your support truly exemplifies what Community Action is all about.

Doug Stanley,
HAP Community Action
Executive Director

Housing & Community Development

Housing and Community Development programs seek to increase the supply of affordable, safe and decent housing for low- and moderate-income families by using public and private resources. Energy conservation services also are available.

Community development services are provided in cooperation with the county commissioners in Athens, Hocking and Perry counties.

Our programs include weatherization assistance, housing repair and rehabilitation, energy efficiency programs and Community Development Block Grants (CDBG).

Home Repair

A variety of home repair programs are available in the tri-county area. Repairs are typically limited to one or two health and/or safety items. Eligibility is based on household income; however, income guidelines are different depending on the specific program. These services are not available for rental units and in some cases mobile homes do not qualify.

Housing Rehabilitation

Rehab programs are currently available for Athens County, Hocking County, Perry County, the city of Nelsonville and the city of Athens.

Rehabilitation services provide comprehensive repairs and upgrades to homes and address all of the major electrical, mechanical and heating systems as well as structural deficiencies. Eligibility is based on household income. These services are not available for rental units and mobile homes do not qualify for assistance.

Energy Assistance Programs

Energy conservation services are provided to low-income homeowners and renters through the Home Weatherization Assistance Program, the Warm Choice Program and the Targeted Energy Efficiency Program. Services include insulation, reduction of air leakage and repair/replacement of heating systems. On average, weatherizing a home reduces a families energy bills by 20 to 30 percent over the course of a year.

Athens County Mobility Management Program

The Mobility Management Program is committed to coordinating, informing, educating and developing solutions to transportation issues in the city of Athens and Athens County.

Difficult economic times have placed heavy burdens on families, elderly, disabled, low income and care givers. While social service budgets have decreased, demand for services has increased. Coordination of transportation services countywide and the exploration of new and improved transportation options will help meet the ever-increasing demand.

For more information about Athens County Mobility Management, visit www.athensmobility.com, or call (740) 767-4500 or 800-686-1093.

Emergency Heating Assistance Program

Home Energy Assistance Program is available during the winter heating season to prevent utility shut-offs, restore or establish utility service, and purchase bulk fuel supplies for income-eligible families. There is also a summer cooling program to help people during the warm summer months.

Scholarship Assistance Program

The HAPCAP Scholarship Committee, made up of employees of the agency, conducts fundraising events year-round to help fund the scholarships. Since 1999, the agency has raised more than \$48,000 — mostly from employee donations — to help provide financial assistance to residents. The

Logan Public Transit increased its ridership by 2,500 passengers in 2010, a 27 percent increase from the previous year, and the trend is continuing in 2011. Logan Public Transit has four vans and one bus for transportation purposes. All of the vehicles are handicapped accessible.

committee has provided \$23,250 in assistance to 39 students. The remaining money is in an endowment fund for future scholarships.

In 2010, five students were awarded scholarships. Receiving scholarships were Pylp Dakhnovets, Alexandria Woodrow, Derek Arnold, Kelly Barbarotta and William DeVault.

Public Transportation

In cooperation with the city of Logan and ODOT, transit services are available for the citizens of Logan. All the vans are handicap accessible. This service is available from 8 a.m. until 5 p.m., Monday through Friday.

LPT participated in the Hocking County Fair, the Washboard Festival and Santa and Veterans Day parades. LPT is involved in Logan Town Center, provided shuttle service for the annual Alumni weekend, attended a Disability Fair and

participated in the opening of a new Goodwill Store.

We were one of 12 systems selected nationwide to participate in Easter Seals Project Action.

The was a two-day facilitated event for the local community to identify what barriers existed to service needs and to develop a plan to address those needs.

Logan Public Transit is local people helping local people by providing dependable, safe and affordable transportation to our community. Mobility is critical to maintaining quality of life and LPT is proud to offer this service making life better for many of our residents.

For more information about Logan Public Transit, visit www.loganpublictransit.com, or call (740) 385-6999, or (740) 385-6813, or follow Logan Public Transit on Facebook.

In Memoriam

Within a span of less than a year beginning in December 2009, HAP Community Action lost four close friends and supporters: Board members Ron Carter, Bob Daubenmier, Rosie Crabtree and Tom Hampton. Their commitment and combined service of more than 60 years will not be easy to replace. They were hard-working advocates for HAP Community Action and they will be sorely missed.

Community Services

Drawing on Community Action's ability to respond quickly and locally to needs in their communities, the Community Services Division houses both short-term and long-term programs designed to improve the quality of life for low-income individuals in Hocking, Athens, and Perry counties.

Rapid Response

This program is designed to meet the special needs of individuals who have been laid off from their jobs and need assistance to re-enter the work force. Services include retraining and supportive services.

Youth Programming

The WIA Youth program served 36 Out of School (high school drop outs, high school graduates, GED recipients, and/or basic skills deficient) and 51 In School (under 18 and still have not completed their secondary education).

To qualify for the program, participants must meet income guidelines and have a barrier to success, such as pregnant/parenting youth, homeless, foster care, involvement with the court system, etc.

The program provides 10 elements: leadership, alternative secondary educational experiences, summer employment experiences, comprehensive guidance and counseling, mentoring, tutoring, paid and unpaid work experiences, supportive services, occupational skills training and follow-up activities. The program also offers parenting skills.

HAPCAP partnered with Athens County Department of Job and Family Services and Hocking County Department of Job and Family Services to operate a Temporary Assistance to Needy Families (TANF) Stimulus funded summer employment program for area youth between the ages of 14-24.

Over 200 youth were hired as HAPCAP employees and placed at more than 40 worksites throughout the two-county region.

Participants not only had a work experience bringing home a hard-earned paycheck, but they participated in weekly learning experiences covering various topics like financial literacy and career exploration.

This was a very popular program for both

HAPCAP Community Services Division Director Jessica Stroh speaks during the roll-out event of GoBus at the Athens Community Center.

youth and our worksites that unfortunately was funded with the one-time ARRA money. Thank you to our worksites and local vendors that made this project possible.

GoBus

GoBus is a new transportation service which offers roundtrips twice daily from Athens to Columbus and Athens to Cincinnati, with stops in between, for only \$10 each way.

GoBus is helping to connect southeastern Ohio residents to urban centers and beyond by making meaningful connections with Greyhound Lines and Port Columbus International Airport.

In early 2010, the city of Athens was awarded a grant by ODOT to establish and operate a daily intercity bus route from Athens to Columbus and Athens to Cincinnati. The city selected HAPCAP to act as the project administrator and Lakefront Lines as the service provider. Our team at HAPCAP created the name, designed a logo and created a marketing plan. Additionally, we created an informative website and brochure.

Operations started on Nov. 1, 2010. As of Feb. 28, over 5,700 people have enjoyed GoBus.

For more information about GoBus, including schedules and stop locations, visit www.RideGoBus.com, call 888-95-GOBUS (888-954-6287), or follow GoBus on Facebook.

Families in Athens, Hocking and Perry counties utilize the services of HAPCAP's Housing and Community Development Division to improve their homes and properties. Top photos: An old worn roof (left) is replaced at a residence on Madison Street in Nelsonville. Bottom photos: A dilapidated wooden retaining wall in New Lexington is replaced by a masonry one.

Through the federal stimulus funding (ARRA), we were able to serve 807 people in 2010, compared to 314 people without the funding. The ARRA funding enabled us to serve an additional 493 people in Athens, Hocking and Perry counties. We also served 86 people through our home repair program.

Community Development

Community Development Block Grant (CDBG) administrative and grant management services are provided to Athens, Hocking and Perry counties.

Examples of eligible CDBG projects include street and sidewalk improvements, water and sewer upgrades, and parks and recreational facilities. The funds can also be used to upgrade community buildings such as museums, senior centers, and fire stations.

A sewer upgrade project in Athens County is one example of infrastructure improvements made possible through the Community Development Block Grant.

Child Development

Hocking Athens Perry Community Action operates six Head Start sites, two in each county.

Head Starts centers are located in Athens and Nelsonville in Athens County, Laurelville and Logan in Hocking County, and Corning and New Lexington in Perry County.

Head Start is a national program that promotes school readiness by enhancing the social and cognitive development of children through the provision of educational, health, nutritional, social and other services to enrolled children and families. Head Start also provides programming for children with special needs/disabilities. In addition, all children participate in a comprehensive health care program.

Children must be 3 to 5 years of age, and families must meet the income guidelines established by the federal government.

All six sites are Step Up To Quality 3 Star Rated, which is a Three Star Quality Rating System in early childhood programs that recognizes and promotes early care and education programs that meet quality benchmarks over and above minimum health and safety licensing standards.

The Child Development Division, which is funded for 459 Head Start children and 96 Early Head Start children, maintained full enrollment in both programs last year.

Early Head Start is a federally funded home visitation program, serving pregnant women and children from birth to age three from low-income families. The program provides comprehensive family and child development services

Children at Head Start enjoy a day in the pumpkin patch. Many activities are planned for Head Start students to allow them to experience different aspects of life.

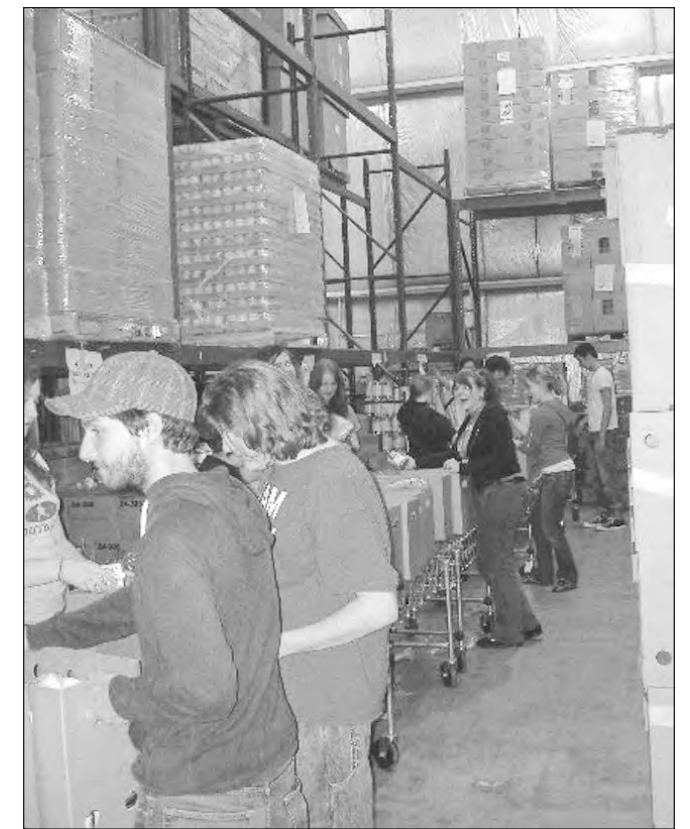

The Second Harvest Foodbank of Southeastern Ohio is a large warehouse operation that receives surplus food donations from major food manufacturers, wholesalers and retailers.

Recent statistics released by the Ohio Association of Second Harvest Foodbanks ranked Ohio 23rd out of all states for rates of food hardship, and one in four Ohio families were at risk of hunger. Many families who are putting food on the table are doing so only because they have foregone other necessities.

Our mission is to channel surplus food to those who do not have enough, with a goal of making a positive difference in their lives. The food bank currently distributes food to over 135 food pantries, soup kitchens and congregate meal sites.

The 10 counties in southeastern Ohio served by the food bank include Athens, Gallia, Hocking, Jackson, Lawrence, Meigs, Morgan, Perry, Vinton and Washington.

Commodity Supplemental Food Program boxes are delivered to 4,250 income-eligible citizens 60 years or older in the same 10-county region. CSFP is a federal USDA food and nutrition program serving nutritionally at-risk income-eligible participants.

Volunteers from The Ohio State University pack Commodity Supplemental Food Program (CSFP) boxes. Each month, more than 4,200 CSFP boxes are distributed by employees of the Second Harvest Foodbank of Southeastern Ohio, a division of HAPCAP.

Second Harvest Foodbank of Southeastern Ohio 2010 summary

	Households Served	CSFP Boxes Distributed	Pounds Distributed
Athens	20,336	6,790	1,428,720
Gallia	12,709	3,459	754,979
Hocking	17,549	4,098	1,487,796
Jackson	12,495	5,837	1,337,154
Lawrence	13,493	4,618	546,513
Meigs	8,710	3,582	105,835
Morgan	7,980	2,728	139,792
Perry	9,858	5,396	457,595
Vinton	11,017	3,083	904,441
Washington	9,695	5,109	305,073
Totals	123,842	44,700	7,467,898

Food & Nutrition

HAPCAP's Food & Nutrition Division has two main components: the central kitchen and the Second Harvest Foodbank of Southeastern Ohio.

The central kitchen produces Meals on Wheels, congregate site meals, meals for Head Start students, meals for Summer Feeding Program and catering.

The central kitchen provides MOW three days a week to the homebound elderly. It also provides daily lunches for children participating in Head Start and to seniors who eat at one of three congregate sites in Athens and Hocking counties.

The central kitchen provides over 1,200 meals every day which are prepared by our permanent staff as well as work study students from Hocking College and Tri County adult career center.

In 2010, the central kitchen prepared 34,225 Meals on Wheels and 6,698 congregate meals in Athens County, and 21,080 Meals on Wheels and 4,290 congregate meals in Hocking County. The kitchen also served 49,987 meals to Head Start students.

When the school year is over, Summer Feeding helps children get a nutritional lunch during the 10-week break before school starts again. Last summer, the kitchen provided 36,738 meals for Summer Feeding children.

In addition, the kitchen plays an integral role in the Empty Bowls fundraiser, supplying the soup, desserts and other necessary items for the annual event to fight hunger.

Dave Jenks (right) delivers both a smile and a meal to Jack Andrews during his Meals on Wheels route. Meals on Wheels are delivered Mondays, Wednesdays and Fridays in both Hocking and Athens counties.

Jane Mong (left) and Barb Chapman paint designs on bowls that were donated and sold during the fifth annual Empty Bowls in October. The annual event is a fundraiser to help fight hunger.

Both programs strive to involve all parents in the Head Start learning process. Activities at the centers are developmentally appropriate and individualized for optimal educational benefit.

All enrolled families receive regular visits from staff to help establish family goals and keep families apprised of their child's progress.

Head Start parents are encouraged to fully participate in the Head Start program.

All Head Start centers offer several opportunities for parental involvement including meetings and trainings and family-fun events.

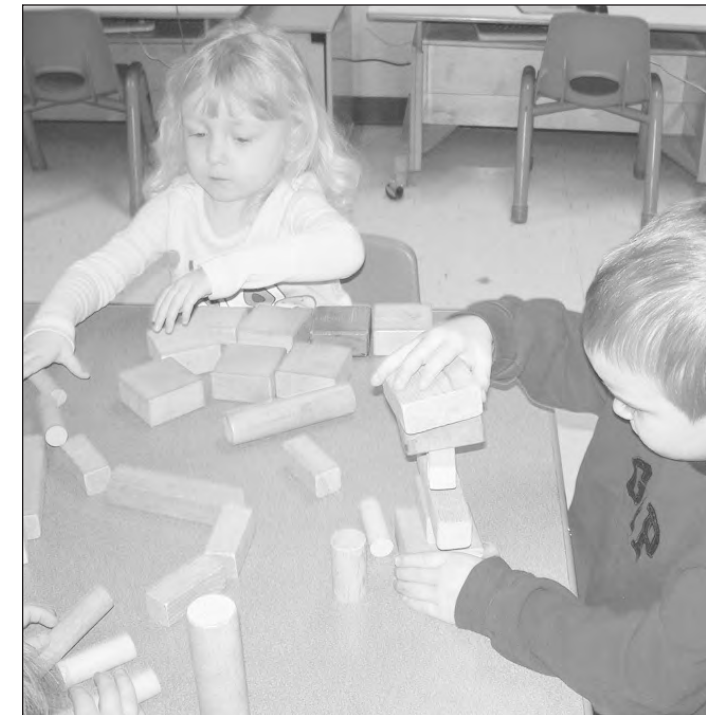

Parents are encouraged to volunteer at the centers and be a full partner in their child's education.

The program uses a curriculum that is fully aligned with state preschool educational standards, working closely with local school districts to ensure a smooth transition to the public school setting.

In 2010, 1,220 children were served in Athens, Hocking and Perry counties through Head Start and Early Head Start. Each child received a medical examination and health and educational screenings. In the three counties combined, 2,481 people volunteered their time for the program.

Children at Head Start centers learn a myriad of skills through many educational and fun processes.

Children at Logan Head Start use blocks to build structures. Building with blocks helps children learn math, language and science. Blocks help children reach academic standards and develop physically and socially. Children develop their creativity through block play.

A young girl paints a beautiful creation during a Head Start activity.

Sincere and special thanks to our 2010 donors
