Center News

Center Based

This month, we will begin center based enrollments for the 2023-2024 school year, and center based re-enrollments for children returning for the 2023-2024 school year.

In the classrooms, children will be learning how adult animals protect their young and comparing it to how their parents protect them. The children will also be learning about the change of the seasons. The children will learn about the sun warming the earth up and how seeds and plants will begin to grow!

Although the weather will hopefully be improving, keep in mind that the children will participate in outdoor activities and need to be dressed appropriately for the weather - sturdy shoes and boots are preferable. Please send in an extra set of clothes for your child to change into if you haven't already.

Home Based

This month, the Early Head Start and Home Based programs will be exploring the importance of fathers and other men who play a significant role in children's lives. This person may be a biological father, adoptive father, or stepfather. He may be a grandfather, another adult male family member, a foster father, a guardian, or the mother's significant other. Our March 20th EHS/HB Socialization will be held at the indoor playground at the Market on State Street! We hope you're able to join us.

Happy Birthday!

Latroy B., Fynlee E.,
and Elijah-Blue P.
